

Upcoming Deadline: October 26, 2017

Travel Funding for U.S. Scholars

International Cartographic Conference

July 2-7, 2017

Travel funding is available through the U.S. National Committee to the International Cartographic Association (USNC-ICA) to help American and international scholars at U.S. institutions attend the 28th International Cartographic Conference (ICC) in Washington, DC, July 2-7, 2017.

Support is based on a competitive evaluation of submitted materials, including an abstract and a short curriculum vitae. The number of scholars supported and the amount of support is contingent upon available funds. Preference is given to early career scholars (graduate students and those completing their Ph.D. in the last 5 years). Support for maturing scholars (5 to 10 years after the Ph.D.) and senior scholars also is available. Awardees will be expected to provide a short statement after the ICC of the benefits of conference attendance and participation.

Travel funding is contingent upon acceptance of abstracts by the ICC organizing committee. Notification of travel funding will therefore be made in January 2017 after the abstracts accepted for conference presentation have been determined.

To apply, submit a copy of your ICC abstract and a one-page vitae clearly indicating your career status. Include both of these in a **single PDF or Word document** titled “Lastname ICC DC Abstract.pdf (or .doc or .docx)”, where Lastname is the last name of the first author. Only one abstract per author will be considered, including co-authorship. Single-authored abstracts by early career scholars will be given preference. Send the abstract/vitae document to Aileen Buckley, (abuckley@esri.com), Chair of the USNC-ICA, at the same time you submit your abstract to participate in ICC 2017 (icc2017.org/abstracts-full-papers-and-posters/).

U.S. scholars and others at the 2015 ICC in Rio de Janeiro
